Foreword

LIGHT is the most wondrous gift of God to man. It is on ladders of light that men have climbed to the summit of culture and civilization. It is light which has shown us the splendors and the glories of the little planet upon which we live, which has lit a path over nameless oceans to fertile and unknown lands. A gleaming point of light in yonder sky tells us of the great star Sirius and that single ray is laden with the secrets of the great sun which gave it birth. Civilization had its beginning, millions of years ago, when man first lifted up his eyes to marvel at the stars.

Without light, earth were a morass, full of fearsome and trembling beings, shuddering in the dark. No visions, then, of rosy tinted dawns, of flaming comets, hurrying in the dark, no smile that ever we could see upon the faces of the ones we love.

But light is here, thank God, and life and love, and wondrous things and pleasant lands to see. We note the heaving bosom of the sea, the gleaming sails of trim and speedy ships, the road that stretches far and wide before—and all because there's light.

So your work is full of dignity, you who deal with light. In the fascinating story of mythology, when the gods still dwelt upon the summit of Olympus, Hyperion was King of Light. And when, in our laboratories here, we had perfected, after years of arduous persistency, the most efficient lighting glass ever developed, it was only fitting that we should name the new king after him who had reigned before.

Hyperion Glass IS Superior Glass

Instructions

THIS Catalog illustrates our staple line of glassware and prices supersede all former prices and quotations. Our Gillglo line is illustrated in Gillglo Catalog and our Gillway line in Catalog B.

1. In ordering goods, give specific description and always order by *catalog number* and *number of plate*.

2. State clearly how the goods ordered are to be shipped, whether by freight, express or otherwise. If there is any preference for a certain route, it should be mentioned on the order.

3. Great care is used in filling orders promptly, packing goods properly and obtaining receipts from carriers for delivery in good condition. We cannot, therefore, be responsible for goods damaged or lost in transportation. All possible precautions, however, will be used to prevent injury or delay and if requested, shipment will be traced.

4. All claims concerning the shipment of goods must be made within one week after their receipt.

5. When referring to orders always give the number and date of your order.

6. Orders from persons unknown to us should be accompanied by draft or business references, or, if desired to be sent C. O. D., an amount sufficient to cover express or freight charges.

GILL GLASS COMPANY, INC.

PHILADELPHIA, PA., U. S. A.

Hyperion Units

No. 603

THE lines of this unit are graceful and efficient. This luminaire has decided directional value and thus the largest percentage of its light output is projected downward on the working plane. It is thus of particular value in schools, stores, drafting rooms and offices.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Recommended Wattage	Prices Dozen
600	8½	6	4	1	30	60	\$20.00
600½	9	6¾	4	1	32	75-100	20.75

602	12	7⅜	4 and 6	1⅓	20	100-150	36.15
603	14	8	6	1⅙	14	150-200	50.75
604	16	8¾	6	1⅙	16	200-300	64.60

Holes will be furnished only when specified, at 10 per cent advance in price
If ordered in less than standard package lots, no discount will be allowed

No Package Charge

GILL GLASS COMPANY, INC., PHILADELPHIA, PA., U. S. A.

Hyperion Units

No. 609

THE lines of this unit also tend to compress and concentrate the light downward and thus the working plane is flooded with soft and mellow light from which all glare is eliminated.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Recommended Wattage	Prices Dozen
606	8½	5¾	4	1	30	60	\$20.00

GILL GLASS COMPANY, INC., PHILADELPHIA, PA., U. S. A.

Hyperion Units

No. 615

THIS unit is especially constructed to project and diffuse light equally in all directions. It is particularly adapted, because of the simplicity and beauty of its design and its effectiveness as a luminaire, for every type of commercial lighting.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Recommended Wattage	Prices Dozen

GILL GLASS COMPANY, INC., PHILADELPHIA, PA., U. S. A.

Hyperion Units

No. 639

AS all of our commercial units, this luminaire does not merely shade the glaring filament of the naked lamp, but diffuses and distributes the light over those planes where light is most requisite.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Recommended Wattage	Prices Dozen
636	8½	5½	4	1	30	60	\$20.00

640	16	9¾	6	½	16	200-300	64.60

Holes will be furnished only when specified, at 10 per cent advance in price
If ordered in less than standard package lots, no discount will be allowed

No Package Charge

GILL GLASS COMPANY, INC., PHILADELPHIA, PA., U. S. A.

Hyperion Units

No. 644

THE large surface-area of this unit increases the diffusive qualities of the luminaire considerably without affecting its distributive ability. In none of our commercial units is the light distributed at random, but the maximum illumination is projected on the working plane.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Recommended Wattage	Prices Dozen
641	8	5½	4	1	30	60	\$20.00

Hyperion Bathroom Units

THIS unit and the electric to match, following the decided trend for an appropriate luminaire for every room in the house, were designed particularly for the bathroom. The tile effect is moulded into the glass, and when lighted the unit and electric harmonize perfectly with the tiled walls and floor of the modern bathroom. They are, obviously, particularly adapted for bathroom lighting campaigns, because of their unusual appropriateness and because of their ability to blend with the bathroom furnishings. They are made in Hyperion Glass and consequently, in addition to their decorative value, are of high efficiency.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Recommended Wattage	Prices Dozen

GILL GLASS COMPANY, INC., PHILADELPHIA, PA., U. S. A.

Hyperion Bathroom Units

THE unit illustrated above is peculiarly susceptible to the tile design and is of unusual attractiveness and beauty. The electric shown is very widely used for bathroom illumination but the tile design makes it even more appropriate for that purpose.

Number	Diameter Inches	Depth Inches	Fitter Inches	Quantity in Carton Dozen	Weight of Carton Pounds	Prices Dozen

Gill System of Packing

ONE of the most annoying and irritating features of the manufacture of glassware, heretofore, has been the high percentage of breakage which attended its shipment. Under the old system of packing in wooden containers, this condition, despite every care that might be taken, was irremediable. Fully appreciative of this truth, we began experimenting, some years ago, with other types of containers and in particular we investigated very thoroughly the practicability of carton packing. Our investigations proved that the corrugated paper carton, as a container of glassware, was not only feasible, but, as we developed it, ideal. In consequence, we have practically eliminated breakage and have given to the trade a sanitary container free from dirt and one which has removed a most fruitful source of irritation, from which sprang most of the misunderstandings which formerly existed between customer and manufacturer.

We were the pioneers also in the elimination of the package charge, notwithstanding the fact that we have greatly improved the mode of packing.

In fine, the interest of our customers is our own interest, and we wish to assure them that we intend to co-operate with them as effectively in the future as we have done in the past.

GILL GLASS COMPANY, INC., PHILADELPHIA, PA., U. S. A.
